<http://www.electricidadberelec.es> - info@electricidadberelec.es

INSTRUCTIONS

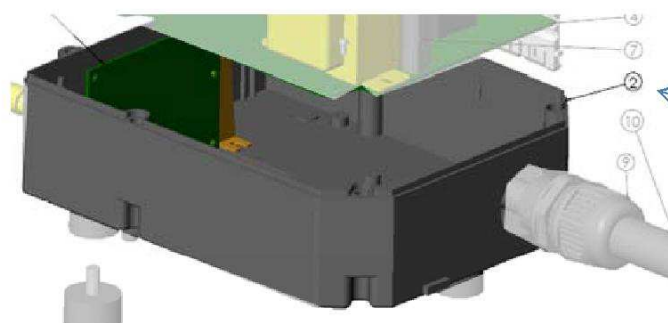

These pages contain the drawings of some Telecrane Italia radio remote controls with the main spare parts available and we avoided to repeat all the components (*i.e. the crystal is included in all the models with this kind of radio transmission but is not repeated*).

For similar models the article code can change. For this reason, when asking for components, the following data must be indicated:

- **the exact model** (*i.e. Silver Magnum F23-8D-8*)
- **the serial number** (*i.e. 23024309*)
- **the channel in use** (*i.e. 131*)
- **the power supply** (*i.e. AC 48V*)

In the table we indicate the number of the item (**n.**), the code (**code**), the **description** and the **gross price**.

ELENCO PRINCIPALI RICAMBI

n.	Codice	Descrizione	Prezzo
1	00249	Guscio frontale rx	80,00
2	00240	Guscio posteriore rx	120,00
3	00008	Antenna rx	50,00

Warning

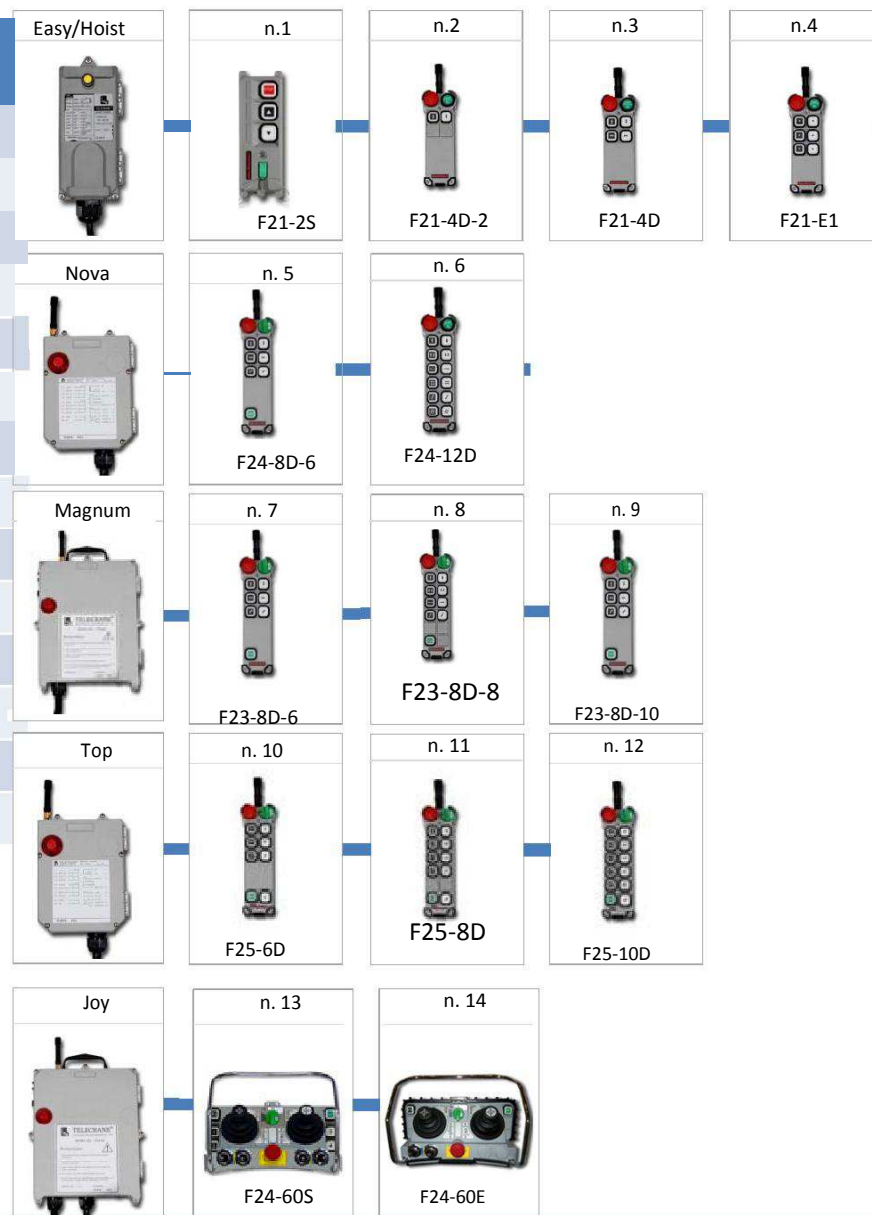

For ordering the right component please check the drawing and the table. The code indicates that specific model so please check the exact correspondence of what you need and what is indicated in the upper right corner of the pages.

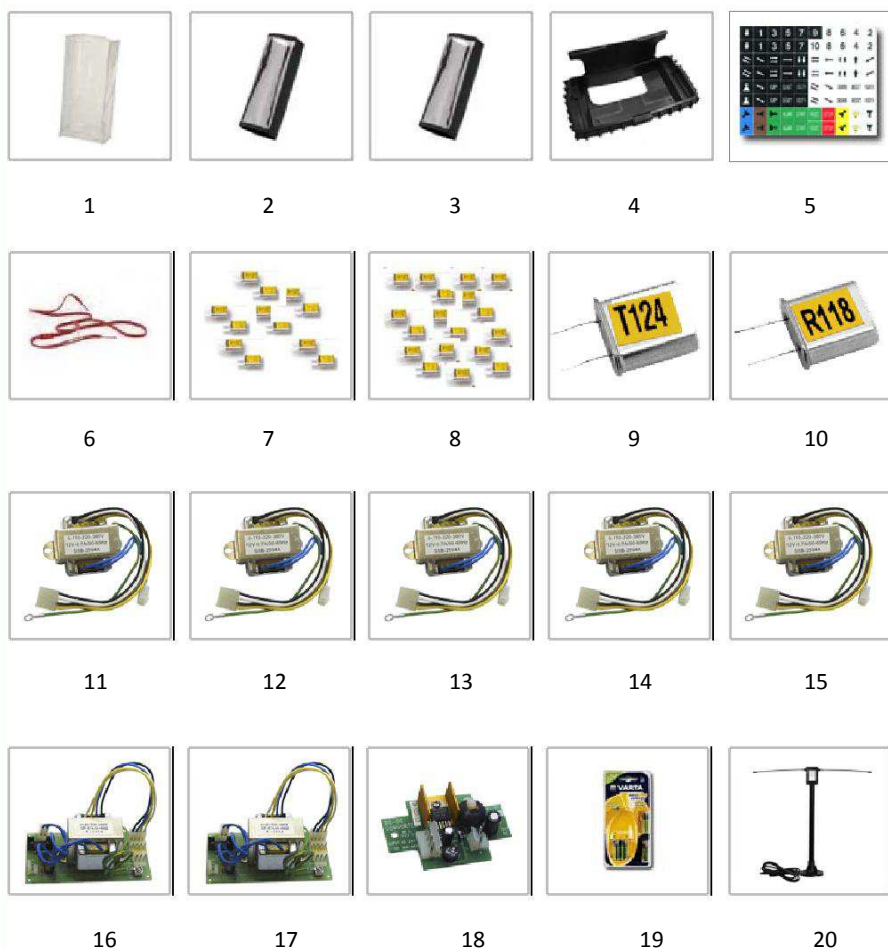

All the components and their prices are meant for n.1 piece: if you need more the price must be calculated.

n. TX	n. RX	Cod. TX	Cod. RX	Model	Price TX	Price RX
1	1R	00161	00144	Silver Easy F21-2S	286,00	335,50
